- ✓Finally as the COVID pandemic is over and travel to China is possible again
- ✓So we decided to hold the e-f-f Global 2023 as a real event in China again.
- ✓But due to the huge success with the live simultaneous streams in Chinese and English we will also stream the 2023 session live.
- ✓There will be also options to ask questions from the live stream

China is an optimal country to promote electric aviation:

- ✓ Rising awareness of environmental issues in the society;
- ✓ The government's ambitious development plan for the general aviation and strong support for innovation;
- ✓ Electric airplanes suit China's GA operation needs very well;
- ✓ E-mobility has a good momentum in China who has become the world's largest electric vehicle market since 2015.
